CBNG

Wyoming High Plains District

- The Powder River Basin contains the largest coalbed natural gas (CBNG) play in Wyoming - about 45,000 CBNG wells.
- United States Geological Survey estimated there is over 14 trillion cubic feet of undiscovered recoverable gas resource.
- This is nearly 1/3 of the Rocky Mountain Region's CBNG resource.
- 2011 - 819 wells drilled and BFO processed 2100 APDs
